Quite a curiosity in the shape of an eight-legged jack rabbit was on exhibition in town Saturday. The rabbit had been killed by the dogs in the country. It was but a few days old and in addition to its regular quota of legs it had an extra set in front and behind on its back. Had the animal not met such an untimely end and grown to the full vigor of rabbithood, it would have been no easy task for the hounds to run it down for when it got tired it could have flopped over and made good use of a fresh pair of pedals. The curiosity was turned over to Joe Sprunker, who picketed it in alcohol.
